Statement on Environmental Conservation

CBC of Brevard recognizes the importance of conserving natural resources and the need to act responsibly in the use of those resources. Our first priority is to the children and families we serve. While we will not compromise our services to them, we will strive to identify and purchase environmentally preferable supplies and services for our daily operational needs and for company events where appropriate and economically feasible. Wherever possible we will look for ways to conserve energy, reduce waste and promote recycling and re-use within our organization.

Approved by the CBC of Brevard Board of Directors February 26, 2009
